... known as "meetingware" with communication technology, such as tele- or videoconferencing.

If teleconferencing via the **telephone** is your choice, then sound quality is key. Conference calls on low-quality speakerphones lose not only subtle **communication** cues but sometimes whole words. Therefore, companies that conduct frequent teleconferences should invest in the best **speakerphone** system they can afford.

**Stand - alone speakerphones**, as opposed to ordinary **phones** with small microphones built in, generally come with a large, domed microphone and a speaker...
